The days spent at the symposium and the memories of the learning journey are very close to my heart. I had a wonderful time at the symposium.

Having said this, I must extend my hearty congratulations to Humanitarian Affairs United Kingdom for making this event an enriching experience for all the 350 delegates.

I've been telling people back home that I heard the best kind of music while I was in Pattaya for the USL Symposium. This music was the sound of many languages being spoken all at once in the foyer of the Hilton hotel. Although different and spoken in different ways, pitches, tempos, etc., somehow, all the voices I heard harmonized and sounded really beautiful to me. I heard and saw delegates from around the world coming together in one venue with the same passion of creating positive change in the lives of many others in our world. It was the best week of my life.

Laura Sykes
University of Tasmania

It was an eye opener and a terrific experience for me to bring simple joy and laughter into the lives of these children. Learning about the situations which led them coming to stay at the orphanage were quite hard to comprehend. The Symposium provided me with invaluable experience which have enhanced my knowledge of global humanitarian issues, their complexities and the ongoing challenges facing those in the field of development.
